FRAGRANCE CONSISTENCY

FRAGRANCES AVAILABLE THROUGHOUT OUR ENTIRE WASHROOM RANGE

Sanair 610ml

Puress 265ml

Puresan 310ml

Microair 100ml

Sanair boosters 75ml

Our formulations are so carefully combined that over time, the top, middle and base notes reveal themselves to the senses.

Top: The top notes of a fragrance represent the first impression (0-15 seconds). These are generally the first to fade given their light molecular structure.

Mid: The middle notes are considered the heart of the fragrance. They last longer than the top notes (15-30 seconds) and have a strong influence on the base notes.

Base: The base notes are the final fragrance that appear once the top notes are completely evaporated (30+ seconds). The base notes mingle with the heart notes to create the full body of the fragrance, but are typically associated with the dry-down period.

Fragrance Consistency

Intensifying and matching your preferred aroma is possible with us thanks to our large selection of fragrance available across our washroom products. Having a global, logical and co-ordinated approach to fragrance also helps avoiding fragrance clash, and ensures the correct blend of top, middle and base notes combinations.

Reduction in Malodour Perception

Our fragrances contain a malodour counteractant innovative technology. Rather than masking odours it neutralises the active malodour molecules and replaces them with the desired fragrance. These reduce at least 70% of the malodour perception.

FEATURES:

- REACH normative
- Malodour counteractant technology
- Made in the UK
- Safety data sheets available
- Cleaner and Deodorisers refills non-hazardous
- Aerosol refills free from CFC

SUITABLE FOR:

- Offices
- Washroom
- Restaurants
- Gyms
- Hotels
- Retail
- Airports

OUR RANGES:

- Citrus Range
- Floral Range
- Classic Range
- Eco Friendly Range

CITRUS RANGE

Citrus Nostrum

An intense tutti fruity bouquet with candied fruits and sweet nuts. Citrus and sweet scents evoke the tropical and summer spirit.

Top	Orange, rasberry, spearmint & plum
Middle	Jasmine & muguet
Base	Coconut & vanilla

Intensity

Lemongrass & Lime

Lemongrass & Lime is an intense scent with hints of floral and fruity tones the refreshing fragrance creates an inviting washroom environment.

Top	Lemongrass, lime, orange, lemon, eucalyptus
Middle	Lilac, rose, peach, honey
Base	Jasmine

Intensity

Senso Mandarin

The most popular intense citrus fragrance. A concentrated mandarin with a strong orange background and mint combined with floral and vanilla scents.

Top	Orange, mint & mandarin
Middle	Neroli, muguet & geranium
Base	Vanilla & musk

Intensity

CITRUS RANGE

Orange One

A strong grapefruit juice and orange zest complex. Strident citrus top notes are blended with neroli and geranium with a base of vanilla, cedarwook and musk.

Top	Orange, lemon, ozone, cassis & grapefruit
Middle	Geranium & neroli
Base	Vanilla, cedarwood & musk

Intensity

Seville Orange

Top notes of zesty aromatic orange segments, lead into a heart of glossy green leaves and lightly scented geranium petals, leading into a pleasant sweet honeyed base.

Top	Orange & mandarin
Middle	Green sap, geranium & camphor
Base	Pine & honeyed amber

Intensity

FLORAL RANGE

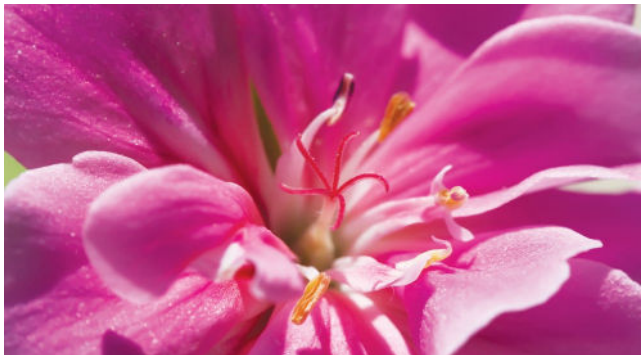
Jasmine

This full-bodied jasmine fragrance is supported by lily, rose and ylang with a sweet balsamic musk background.

Top	Citrus notes
Middle	jasmine, Lily, Rose ylang
Base	Musk, amber

Intensity

Harmony



A gentle floral fragrance with a touch of citrus notes of grapefruit, lime and lemon. Roses, geranium, jasmine and neroli add an extra freshness and cleanliness.

Top	Lemon, lime & grapefruit
Middle	Rose, geranium, jasmine & neroli
Base	Neroli

Intensity

FLORAL RANGE

Mediterranean Forest

A strong grapefruit juice and orange zest complex. Strident citrus top notes are blended with neroli and geranium with a base of vanilla, cedarwook and musk.

Top	Orange, apple, eucalyptus
Middle	Jasmine, white floral
Base	Moss

Intensity

Tropical

Fragrant mango and a hint of passionfruit, followed by pink grapefruit, melon, pineapple and coconut, a little light jasmine blossom and a background of raspberry sorbet

Top	Grapefruit, passionfruit, mango, coconut
Middle	Melon, pineapple, jasmine
Base	Raspberry, sorbet

Intensity

CLASSIC RANGE

Air Concept

Reminiscent of the sweetness of childhood with this bubblegum fragrance. Rich caramelly vanilla base notes with cherry candy.

Top	Peach, orange & citrus
Middle	Cherry
Base	Vanilla

Intensity

Sea Breeze

A gentle fragrance which evokes ocean scent and freshness. An ozonic opening leads to a heart of fresh owers and green watery tones.

Top	Ozonic, melon, orange, apple & eucalyptus
Middle	Muguet, rose & jasmine
Base	Woody & amber

Intensity

CLASSIC RANGE

Green Apple

A fresh juicy green apple fragrance with hints of lush pear, pineapple and crisp raspberry.

Top	Orange, rasberry, spearmint & plum
Middle	Jasmine & muguet
Base	Coconut & vanilla

Intensity

Spiced Apple

A mouth-watering lush green apple fragrance warmed by ground cinnamon, clove bud and just a sprinkle of cocoa powder.

Top	Lemongrass, lime, orange, lemon, eucalyptus
Middle	Lilac, rose, peach, honey
Base	Jasmine

Intensity

Vanilla

A soft powdery vanilla fragrance that extends a warm embrace. This familiar favourite is a timeless classic.

Top	Vanilla
Middle	Vanilla, heliotrope
Base	Vanilla, Amber

Intensity

ECO FRIENDLY RANGE

Bio Fragrances

Available in Sanair & Puresan

Bio Pure: non-fragranced

Our Bio Refills have all the same qualities and features as our other refills, but with the added benefit of being eco-friendly sanitisers.

The Bio Refills are based on naturally occurring aerobic organisms. Unlike other washroom products which chemically attack odour sources, our Bio Refills harmlessly digests odour causing substances such as urine and fatty acids.

Because of this unique biological action the odour is completely neutralised at the source. Other washroom products act to simply attempt to mask the odour but leave the underlying problem not tackled. The micro-organisms in the Bio Refills not only break down harmful bacteria and substances such as urine but feed on the by-products as part of their mode of action. Thus the malodour is destroyed with the release of harmless carbon dioxide to the atmosphere.

The carefully formulated Bio Refills also contain a mild but powerful, totally biodegradable surfactact derived from coconut oil.
