

A smarter step forward in vending

Designed for speed, reliability, and ease of use, G-Snack Evolution delivers a fast vend cycle (15–20 seconds) and a smoother, more precise product handling experience. With its Basket Mode, users can select multiple items and receive them in a single transaction, increasing convenience and boosting average sales. G-Snack Evolution's internal temperature range (+2 °C up to +10 °C) makes it ideal for drinks, snacks, and various types of food, including fresh vegetables and eggs, safely delivered thanks to the central delivery eyelet providing an ergonomic, user-friendly, and smart vending solution.
