

Enjoy the brrreeze

One machine, endless possibilities all year round: thanks to its dual-mode technology, G-Frozen can easily switch from down to -25 °C, to fresh mode up to +5 °C for dispensing snacks, beverages, and dairy products during colder seasons. This smart system operates in a single optimized mode at a time, ensuring consistent temperature and reliable performance throughout the cabinet. From ice cream to ready meals, gluten-free options, and healthy or vegan products, G-Frozen transforms any location into a high-capacity, high-impact retail point. Designed for versatility, G-Frozen features modular spiral configurations that adapt to different product types and sizes, along with an anti-vandal motorized shutter for...
