

A smarter, greener choice

The SuperStack C26 is designed to meet the growing demand for glass bottle vending, particularly in the DACH region, in line with government policies promoting recycling and material reusability for a more sustainable future. This robust, plug-and-play vending machine ensures effortless operation, featuring a time-tested mechanism that has been trusted in the market for decades. Its reliable technology guarantees smooth performance while maintaining the highest quality standards and environmental responsibility. Reaffirming our commitment to sustainability, this popular model is now returning in an eco-friendly HC (R290) Hydro Carbon version, further strengthening our dedication to natural refrigerants and...
