

Modularity made simple. Flexibility made visible.

SandenVendo Matrix Locker allows you to create fully integrated, scalable automated retail environments tailored to modern consumer needs. Designed to handle Extra Vending, bulky items, and unconventional products, Locker transforms any location into a smart retail space, ideal for 24/7 unattended sales. As a Slave unit, it can be connected to a master unit and other SandenVendo slave machines for premium vending setups. Its transparent modules allow for modular configuration, ensuring high capacity and an intuitive user experience, with full product visibility before purchase.
