

CONTACTLESS PAYMENT

Easivend Contactless

A broad washroom offering in one slim, wall-mounted machine. Easivend accepts contactless bank-card payments and can offer up to nine product choices.

Dimensions (H x W x D)	1000 x 360 x 230 mm
Power	Mains wired / plug
Choices	Up to 9 products
Selection layout	6 or 10 buttons
Construction	ABS plastic; steel-white version also listed
Product references	ABS white H30256160; steel white H3025610
Warranty	1 year, manufacturer

Features

- Mains powered: no batteries to replace.
- Digital display for price, stock availability and service information.
- Programmable prices, products and currency settings.
- Six- or ten-button layouts, secure electronic operation and optional branding.
- Nappy-vending configuration available; agree the pack layout before ordering.

Installation and service planning

Wall-mounted with a suitable mains supply. We confirm the wall, mounting position, electrical connection, payment setup and exact EC-10 configuration before installation. Request the current installation and operation manual for the supplied unit.

Agree pricing and product selection, then load the approved boxed packs. Check the display, stock state and a test vend during each service visit. Payment-provider arrangements and any fees form part of the proposal.

Specification summary prepared from Unicorn Hygienics public product information, checked 23 September 2026. This is not the manufacturer installation manual. Confirm the exact configuration before ordering.

FREE ACCESS · TIMED DISPENSING

Freeseerve Plus

Free essentials with more control over repeated dispensing. The battery-powered push button and adjustable delay suit busy shared washrooms.

Dimensions (H x W x D)	775 x 260 x 67 mm
Weight	6.4 kg
Power	Battery operated
Columns	2
Delay	0-60 seconds
Finish	White standard finish
Warranty	1 year in the manufacturer flyer

Features

- Two columns for packed towels, applicator tampons and suitable TENA Men products.
- Configurable delay from 0 to 60 seconds. Published timed options include 1, 2, 5, 10, 15, 20, 30 and 60 seconds.
- Key-locked access and controlled dispensing help limit bulk removal.
- Metal shell with an ABS front; white steel standard finish.
- No mains connection needed.

Installation and service planning

Position the empty unit, mark its three fixing holes, drill and use wall plugs and screws suited to the wall. Secure the unit before loading products. Confirm safe mounting height, battery requirements and the correct fixing diagram with the installation guide.

Open with the service key, load the agreed packs and set the dispensing delay. Check the button and battery condition, then test both columns. The supplier does not publish an exact pack capacity for this model on its product page.

Specification summary prepared from Unicorn Hygienics public product information, checked 23 September 2026. This is not the manufacturer installation manual. Confirm the exact configuration before ordering.

COIN OR TOKEN PAYMENT

Multivend

A flexible electronic machine with up to nine choices. Battery operation makes it useful where bringing a mains supply to the wall is impractical.

Dimensions (H x W x D)	1000 x 360 x 230 mm
Weight	13.5 kg ABS / 20.8 kg steel
Power	Battery; no mains wiring
Material / finish	White ABS or powder-coated steel in white or silver
Pack size: minimum	60 x 45 x 15 mm
Pack size: maximum	135 x 90 x 42 mm
Product references	ABS white H3025016; steel white H30250100
Warranty	1 year, manufacturer

Features

- Six- or ten-button options and a programmable internal keyboard.
- Accepts up to 12 coin denominations; currency configuration available.
- No change is given. Includes a refund button and coin return when empty.
- Digital information for prices, stock, battery life and service needs.
- Anti-vandal lock, optional branding and nappy-vend conversion.

Installation and service planning

A self-contained wall-mounted unit. Check the wall load and access for servicing, then request the model-specific mounting and operation instructions. Confirm accepted coins or tokens, prices and packs during setup.

Use the internal keyboard to configure the agreed range. Refill approved packs, collect the cash and check battery and stock alerts. Test dispensing and refund operation after servicing.

Specification summary prepared from Unicorn Hygienics public product information, checked 23 September 2026. This is not the manufacturer installation manual. Confirm the exact configuration before ordering.

COIN OR TOKEN · TWO COLUMNS

Autovend

A slim steel dispenser for two types of boxed essentials. Its shallow profile suits compact washrooms as well as busy public facilities.

Dimensions (H x W x D)	705 x 360 x 100 mm
Weight	10.6 kg
Finish	White steel
Product reference	H3241
Left column: pack range	60 x 45 x 10 to 108 x 75 x 38 mm
Right column: pack range	75 x 45 x 10 to 130 x 75 x 38 mm
Power / columns	Battery / 2

Features

- Battery powered with no mains wiring.
- Factory-configurable columns and top-fill refilling.
- Price changes through an adaptor; refund function included.
- Single cashbox, with refunded coins collected on the left.
- Key-lock access, optional branding and sealed boxed products.

Installation and service planning

Wall mount using the correct model guide and fixings for the substrate. The current design uses fewer internal parts to simplify handling and setup. Agree the factory column configuration before delivery.

Top-fill the configured columns, check prices using the adaptor and test product delivery. Empty and secure the cashbox as part of the agreed service routine.

Specification summary prepared from Unicorn Hygienics public product information, checked 23 September 2026. This is not the manufacturer installation manual. Confirm the exact configuration before ordering.

FREE ACCESS · STANDARD PACKS

Freeseerve V2

Free boxed period care in a narrow, two-column unit. V2 accommodates standard towel packs and applicator tampon packs, with male incontinence options too.

Dimensions (H x W x D)	576.8 x 251 x 69 mm
Weight	4.23 kg
Finish	White steel
Product reference	H3322120015
Supply packaging	2 per box; available individually
Power	None

Features

- No coins, batteries or wiring.
- Open access without buttons or levers.
- Steel construction, secure service access and quick top filling.
- Suitable for shared spaces or individual cubicles.
- Selenei branding stickers included; other branding can be discussed.

Installation and service planning

The published method uses three wall fixings: position the empty unit, mark and drill, insert suitable plugs, then screw it securely into place. Load only after mounting. Check the supplied diagram against the exact V2 unit.

Top-fill the columns with the agreed sealed packs. Check the outlets, pack movement and remaining stock. Towel/guard capacity is listed as 20 packs; the tampon/shield column is listed as 27 packs.

Specification summary prepared from Unicorn Hygienics public product information, checked 23 September 2026. This is not the manufacturer installation manual. Confirm the exact configuration before ordering.

FREE ACCESS · MINI PACKS

Freeseerve V1

A compact way to offer mini towel packs and non-applicator tampons free of charge. A useful option for discreet provision close to the point of need.

Dimensions (H x W x D)	573 x 228 x 69 mm
Weight	3.16 kg
Finish	White steel
Product reference	H3322110015
Supply packaging	2 per box; available individually
Power	None

Features

- Dual-column design for sealed boxed products.
- No coins, power, buttons or levers.
- Steel body, secure service access and top-fill refilling.
- Designed for individual cubicles or shared washrooms.
- Selenei branding stickers included.

Installation and service planning

The supplier describes three wall fixing points. Mark the empty dispenser position, drill, fit suitable wall plugs and secure with screws before loading. Confirm the mounting diagram supplied with the dispenser.

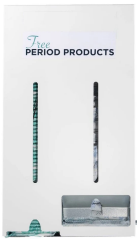

Use the mini towel format and the correct non-applicator tampon packs. Published capacities are 19 towel packs and 29 non-applicator tampon packs. Confirm column orientation from the supplied unit: the supplier webpage repeats its left-column label.

Specification summary prepared from Unicorn Hygienics public product information, checked 23 September 2026. This is not the manufacturer installation manual. Confirm the exact configuration before ordering.

FREE ACCESS · INDIVIDUAL ITEMS

Freevend

Offer individually wrapped pads and tampons without a vending box. Freevend combines a slim two-column cabinet with simple mechanical dispensing.

Dimensions (H x W x D)	500 x 280 x 100 mm
Weight	8 kg
Published capacity	70 pads / 350 tampons; confirm configuration
Columns	2
Product references	H3325010015 towel/tampon; H3325010016 towel/towel
Power	None

Features

- No coins, tokens, batteries or wiring.
- Towel/tampon or towel/towel configurations.
- Hinged removable cover for refilling.
- Different compatible brands and sizes can be configured.
- Optional branding and discreet access to single products.

Installation and service planning

The published installation method uses four fixing holes. Position, mark and drill, then use plugs and screws suited to the wall. Secure the empty dispenser before loading individually wrapped products.

Open the hinged cover, replenish the configured products and check that one item dispenses correctly. Match brands, dimensions and item format to the agreed setup; loose here means individually wrapped, not unwrapped.

Specification summary prepared from Unicorn Hygienics public product information, checked 23 September 2026. This is not the manufacturer installation manual. Confirm the exact configuration before ordering.

FREE ACCESS · PRIVATE CUBICLE

Cubicle Vend

A compact single-column dispenser that puts boxed essentials inside the cubicle. It is especially useful where privacy and easy access matter.

Dimensions (H x W x D)	222 x 148 x 90 mm
Published weight	5 kg; confirm with the current order specification
Columns	1
Product reference	H3125010010B
Power	None

Features

- Boxed towels, tampons or compatible incontinence products.
- No power, batteries or payment required.
- Top-fill system and sealed packs.
- Leading-brand refill options and optional organisation branding.
- A discreet option for shared or mixed-use washrooms.

Installation and service planning

The supplier describes four wall fixing points. Mark and drill from the empty dispenser, fit appropriate plugs and securely screw into place. Check cubicle clearance and access before fixing.

Top-fill with one agreed pack format. Capacity varies by product: published towel and guard packs hold eight, while applicator tampon and shield packs hold eleven.

Specification summary prepared from Unicorn Hygienics public product information, checked 23 September 2026. This is not the manufacturer installation manual. Confirm the exact configuration before ordering.
