SANDENVENDO

HS7 Touch

Your complete coffee destination.

A self-contained coffee point with automatic cup dispensing and a generous touchscreen. Bring fresh espresso and a choice of hot drinks to places where a counter is not available.

Technical overview

Format	**Freestanding espresso vending**
Dimensions · H × W × D	**1,830 × 655 × 770 mm**
Net weight	**180 kg · without options**
Touchscreen	**18.5 inches**
Selections	**22 + sugar preselection**
Cup capacity	**Up to 750 or 550, depending on cup size**
Cup diameters	**70-73 mm or 80 mm**
Stirrers	**Up to 500**
Ingredient canisters	**6 × 4.4 litres**
Water connection	**¾-inch · 2-8 bar**
Supply	**220-240 V · 50-60 Hz**
Payment interface	**Executive / MDB**

Configuration and installation

Optional: cup sensor, dual grinder, water tank kit, water filter and telemetry. Confirm the chosen configuration and electrical load at survey.

*Cup storage capacity is not a cups-per-day performance rating. HS7 Touch is the HS 7T espresso configuration; it is not the instant HN 7T.

SANDENVENDO

CaffèUNO TSC

Big coffee. Compact footprint.

The PRO espresso tabletop brings an integrated conical-burr grinder and a visible bean hopper to your coffee area. Choose the touchscreen configuration, with an optional cabinet and payment module.

Technical overview

Model	**CaffèUNO PRO Espresso · TSC**
Dimensions · H × W × D	**770 × 420 × 530 mm**
Net weight	**35 kg · without options**
Bean hopper	**2.4 kg**
Powder canisters	**2 large + 1 small**
Grinder	**Professional conical burr**
Touch configuration	**10-inch touchscreen option**
Alternative interface	**5-inch display + direct-selection buttons**
Water connection	**¾-inch · published pressure requires confirmation**
Supply	**220-240 V · 50-60 Hz**
Payment interface	**Executive / MDB · optional**

Configuration and installation

Optional: base cabinet, payment tower, cup sensor, water tank kit and filtration. Cabinet and payment module add to the footprint.

The manufacturer lists 0.2-8 bar alongside 0.2-0.8 MPa; these lower values are inconsistent. Confirm minimum pressure with the supplier. TSC is not the smaller TSE or the instant TSH.

NESCAFÉ

Countertop

A coffee corner, without the cabinet.

Use your existing counter for a branded NESCAFÉ coffee point, with cups and condiments alongside the machine. Confirm the complete counter display footprint and load-bearing requirements at survey.

Technical overview

Configuration	**Countertop**
Display / unit size	**668 × 422 × 599 mm**
Dimension order	**Height × width × depth**
Machine body	**668 H × 422 W × 599 D mm**
Machine net weight	**35.4 kg · furniture excluded**
Recommended daily volume	**60-80 cups · supplier guidance**
Touchscreen	**10 inches**
Menu	**12-24 configurable drinks**
Bean hoppers / canisters	**1 bean hopper / 3 canisters**
Water	**Mains · ¾-inch connection · 1.5-8 bar**
Milk format	**Powdered milk**
Heating	**Varitherm heat-on-demand**

Configuration and installation

Cashless payment and the service arrangement depend on the agreed package. Final Irish availability, recipes, furniture and installation requirements must be confirmed.

Dimensions are for the machine body only, not the complete countertop display. Allow additional space for cups, branding, cleaning and servicing.

NESCAFÉ

Base furniture unit

A dedicated place for a better break.

A timber-look base unit creates a defined self-serve coffee area, with branded presentation and space beneath the counter. A practical choice when you need a stand-alone installation.

Technical overview

Configuration	**Base furniture unit**
Display / unit size	**1,800 × 900 × 700 mm**
Dimension order	**Height × width × depth**
Machine body	**668 H × 422 W × 599 D mm**
Machine net weight	**35.4 kg · furniture excluded**
Recommended daily volume	**60-80 cups · supplier guidance**
Touchscreen	**10 inches**
Menu	**12-24 configurable drinks**
Bean hoppers / canisters	**1 bean hopper / 3 canisters**
Water	**Mains · ¾-inch connection · 1.5-8 bar**
Milk format	**Powdered milk**
Heating	**Varitherm heat-on-demand**

Configuration and installation

Cashless payment and the service arrangement depend on the agreed package. Final Irish availability, recipes, furniture and installation requirements must be confirmed.

Dimensions describe the published furniture configuration. Allow service access and verify the final unit before installation.

NESCAFÉ

Flat-header unit

Make coffee easy to find.

A raised NESCAFÉ header gives your coffee station extra visibility. Use it to create a clear destination in a larger reception, shared refreshment space or visitor area.

Technical overview

Configuration	**Flat-header unit**
Display / unit size	**2,150 × 900 × 700 mm**
Dimension order	**Height × width × depth**
Machine body	**668 H × 422 W × 599 D mm**
Machine net weight	**35.4 kg · furniture excluded**
Recommended daily volume	**60-80 cups · supplier guidance**
Touchscreen	**10 inches**
Menu	**12-24 configurable drinks**
Bean hoppers / canisters	**1 bean hopper / 3 canisters**
Water	**Mains · ¾-inch connection · 1.5-8 bar**
Milk format	**Powdered milk**
Heating	**Varitherm heat-on-demand**

Configuration and installation

Cashless payment and the service arrangement depend on the agreed package. Final Irish availability, recipes, furniture and installation requirements must be confirmed.

NESCAFÉ

Lightbox unit

A standout coffee destination.

An illuminated branded header makes the coffee station a focal point. Pair the compact bean-to-cup machine with a complete furniture unit for a more prominent self-serve offering.

Technical overview

Configuration	**Lightbox unit**
Display / unit size	**2,065 × 900 × 700 mm†**
Dimension order	**Height × width × depth**
Machine body	**668 H × 422 W × 599 D mm**
Machine net weight	**35.4 kg · furniture excluded**
Recommended daily volume	**60-80 cups · supplier guidance**
Touchscreen	**10 inches**
Menu	**12-24 configurable drinks**
Bean hoppers / canisters	**1 bean hopper / 3 canisters**
Water	**Mains · ¾-inch connection · 1.5-8 bar**
Milk format	**Powdered milk**
Heating	**Varitherm heat-on-demand**

Configuration and installation

Cashless payment and the service arrangement depend on the agreed package. Final Irish availability, recipes, furniture and installation requirements must be confirmed.

†Nestlé's product page lists 700 mm depth, while its office guide lists 743 mm. Do not use either as a final installation dimension without supplier confirmation.
